-

PROFESSIONAL EXPERIENCE IN ENGINEERING AND DATA SCIENCE

Developer | Agricultural Land Management Application

September 2022 - March 2025

- Developed web-based specialized application for managing agricultural land information with geo-integration
- Implemented full-stack development including both backend and frontend components
- Performed testing and managed DevOps processes including CI/CD pipelines
- **Technologies:** Java, Spring, JSF, Primefaces, JavaScript, BIRT, SQL, PostgreSQL, Git, JIRA, Confluence

ETL Developer | CMS Migration Project

May 2022 - September 2022

- Led data migration efforts from legacy Typo3 CMS to Liferay DXP platform
- Analyzed Typo3 adaptations and extensions to implement equivalent solutions on Liferay
- Supported migration of websites, forms, and content sites to the new platform
- Successfully migrated data from previous intranet system
- **Technologies:** Java, Talend Open Studio, Liferay DXP 7.4, Liferay Cloud, IntelliJ, Docker, Git, Atlassian (Confluence, Jira), Gradle

Developer | NoSQL Evaluation Project

USU (IT Service Provider) | December 2021 - May 2022

- Participated in R&D project evaluating NoSQL database technologies
- Created comprehensive evaluation matrix for NoSQL database selection based on specific use cases
- Developed example implementations to demonstrate application possibilities
- Contributed to best practice guide on data modeling published as a blog article
- **Technologies:** Java, Spring Boot, JavaScript, SQL, NoSQL, JSON, ArangoDB, MongoDB, Redis, Git, Docker, Atlassian suite

Senior Electrical Engineer

Energy Supplier | July 2006 - July 2017

- Conducted power plant monitoring and performed final stage tests for power plants
 - Executed installation, pre commissioning, testing, error analysis, and correction
 - **Technologies:** S7 Siemens (PLC), LOGO
-

DATA SCIENCE SKILLS

- **Consulting:** Data Migration & Integration, Database Management, ETL Processes
 - **Programming:** Java, Python, Rust, JavaScript, SQL
 - **Frameworks & Tools:** Spring, Spring Boot, JSF, Primefaces
 - **Databases:** PostgreSQL, MySQL, MongoDB, SurrealDB, Redis
 - **Data Science:** Machine Learning, Scikit-learn, Pandas, TensorFlow, Keras, spaCy
 - **Visualization:** Metabase, Matplotlib, NumPy
 - **DevOps:** Docker, Git, Bash, Apache Tomcat, AWS
 - **CMS & Integration:** Liferay DXP, Talend Data Integration
 - **Project Management:** Agile/Scrum, Atlassian (Confluence, JIRA)
-
